## Storage Container 20/40 ft

Heavy Duty Containers are cost-effective and practical solutions. Constructed from marine-grade steel, they are tough, durable, fully lockable and tamper-proof; and secure onsite storage is an essential component.

Containers are typically available in standard lengths of 6 or 12 metres, and offer sufficient storage space for several heavy duty motorised tools and equipment, plus materials. We can retro-fit, shipping containers into a storage area with racking systems.

### Features :

- Recessed locking systems to keep contents safe
- All secure and weather proof. Forklift accessible, heavy-duty floors on most equipment
- Suitable for multiple transportation methods such as truck, rail, or ship.
- Structural integrity needed to be lifted by crane or other heavy equipment.
- Dimensions are regulated by the international Standard Organization (ISO)

### Specifications :

- Dimensions : 20'Lx 8'W x 8.6'H (GP)  
20L x 8'W x 9.6'H (HC)  
40'L x 8'W x 8.6'H (GP)  
40'L x 8'W x 9.6'H (HC)
